Date: 09/09/2021
Region: Global
Product: VideoEdge NVRs - Haswell CPU
Brand: American Dynamics

Scope

We are pleased to announce that we have released a new range of VideoEdge NVRs. This new hardware provides expanded capabilities regarding throughput and overall system performance. To put more resources toward supporting this latest iteration, we are restating that support for the following VideoEdge NVRs, based on the Intel Haswell CPU platform, has ended.

The following VideoEdge NVRs, based on the Haswell CPU, were discontinued at the end of October 2017 and replaced at that time. It is now beyond the 5-year support period offered by American Dynamics and no further firmware updates; hardware troubleshooting or repair services will be provided for these products.

End of Support – Firmware updates, hardware troubleshooting and repair services are not available after the effective date.	10/31/2022
